

MicroPROX

Pocket-Size Proximity Card Reader
for Access Control

Unmatched Design Excellence

- **Elegant and Compact** : The sleek, small footprint design is perfect for any environment, seamlessly installing on metal surfaces, walls, and doors.
- **Versatile Application** : With a robust potted enclosure and a 12" pigtail connection, MicroProx is ideal for both indoor and outdoor use.

Premium User Features

- **Clear Indicators** : Features a bi-color LED indicator and a system-controlled built-in buzzer, ensuring intuitive operation and feedback.
- **Cost-Effective** : Compatible clamp shell cards are available at highly attractive prices, offering great value without compromising on quality.

Superior Integration Capabilities

- **Universal Compatibility** : The 26/34 Bit Wiegand Interface integrates effortlessly with the majority of access control systems, making it incredibly versatile.
- **Extended Range** : Operates with an 8-12V DC input, supporting cable distances up to an impressive 100 meters from the host.

Leading Performance

- **Exceptional Read Range** : Achieves a reliable read range of up to 3 inches, setting a new standard in the market.
- **Top-Tier Reliability** : Engineered to deliver unparalleled performance, MicroProx stands out as the superior choice for all access control needs.
